

# DR. PRICE'S CREAM BAKING POWDER

Pure—Wholesome—Reliable—  
Indispensable

Its fame is world-wide. Its superiority unquestioned. Its use is a protection against alum food. In buying baking powder examine the label carefully and be sure the powder is made from cream of tartar. Other kinds do not make the food healthful.

OH, NO! NEVER WEAR A NECKLACE AROUND YOUR NECK. ANY PLACE BUT TAT, AND YOU'RE STYLISH.

GERALDINE FARRAR.

The place to wear your pearl necklace or your near-pearl necklace, if you want to be fashionable, is any old place you like except around your neck.

The more extraordinary the use you devise for a strand of pearls the more likely you are to be doing or wearing the very latest things. You may loop it from ear to ear and let it droop alluringly on the pearly whiteness of your neck—Geraldine Farrar wears hers that way—or you may twist it around your psyche in the back. For the latter purpose the strand has to be very long, dropping almost to the waistline after it has made the loop of the hair.

Some women wear a strand of pearls like the chin strap on the little Tommy Atkins hats which are so fashionable this winter. One woman appeared in a New York restaurant the other night with a long pearl chain dropping from one ear. Any way seems to be the right way except the old way. It is said that only hopeless old fogies will be seen with their necklaces worn where they belong—about their necks.

## RAILROADS IN PLEA FOR ADVANCED RATES

Contention of Officials is That Earnings Are Not Commensurate With Increased Cost of Operation.

WASHINGTON, Nov. 25.—That railroad earnings are not commensurate with the increased cost of operation, higher taxes and wages and additions to equipment necessary to meet commercial demands of the country, was submitted Monday to the interstate commerce commission by representatives of the railroads arguing for a general increase of five per cent in freight rates.

The claim filed by railroads operating in territory east of the Mississippi and north of the Ohio and Potomac rivers was upheld in a preliminary outline of the railroad situation by Daniel Willard, president of the Baltimore & Ohio railroad, representing for the occasion the eastern roads, and Frederick A. Delano, president of the Wabash railroad, on behalf of the Central Traffic association.

Statistics tending to show the curtailment of the earnings as compared to increased costs were submitted by an accounting committee composed of C. M. Bunting, comptroller of the Pennsylvania railroad; W. C. Wishart, statistician of the New York Central lines; W. H. Williams, third vice president of the Delaware & Hudson company; C. P. Crawford, comptroller of the Erie road, and Geo. M. Shriver, second vice president of the Baltimore & Ohio railroad.

Pres. Willard, in an opening statement asserted that railroads in the territory concerned had expended in property investments in the last three years \$600,000,000 and that in the year 1913 the earnings were \$15,311,321 less than for the year 1910. He argued that the five per cent increase applied for was not as much as the railroads were entitled to and in this he was supported by Fred Delano, who argued for the railroads, in central territory and urged that in fixing rates, the commission should regard no particular territory. Figures for the first two months of the present year, Mr. Delano said, were less encouraging even than the results since 1910 when an appeal for a ten per cent increase in rates was denied.

## PRICE OF MEAT MAY COME IN FOR PROBE

Navy Lets Contract For Beef in Australia at Lower Figure Than Could be Secured in United States.

WASHINGTON, Nov. 25.—Another federal investigation into the high cost of living, promising criminal prosecution if Attorney Gen. McReynolds can find an alleged cold storage conspiracy, got under way Monday, and a congressional investigation of a different phase of the cost of living problem was threatened.

While special agents of the department of justice are sifting charges that eggs, poultry and dairy products are being piled up in cold storage to maintain high prices and even force them higher, Rep. Britton of Illinois is preparing to ask for a congressional investigation into prices of meat.

The proposal for a meat investigation was prompted by an announcement that the navy had bought nearly 300,000 pounds of Australian fresh beef at a half a cent a pound lower than the best prices of American packers, and 120,000 pounds of canned corn beef from the Australian packers at eight cents a pound cheaper than the lowest price in the United States. The price paid was 11.30 cents for the dressed beef and \$15.37 cents for the corned product.

Announcing his intention to ask for a congressional investigation of the beef cost, Britton declared that he wanted to develop why the public could not benefit by the advantage of buying from Australia if the navy could do so. Rep. McKellar of Tennessee, has pending in the house a bill to prohibit interstate transportation of any food products kept in cold storage more than 90 days. He contends its enactment into law would go far toward solving the cold storage question.

## ARE ENTITLED TO RIDE TO SCHOOL

All children between six and 12 years of age do not have to walk to school when the building is more than a mile from their home. They are entitled to a ride and it is up to the township trustee to see that they are conveyed to and from the school every day.

This was the ruling made Monday afternoon by Judge Funk in circuit court in the trial of William Wolfe, who was charged with failing to send his daughter Catherine to school. Wolfe's defense was that it was the duty of the trustee to see that his daughter was given a ride to and from the school every day.

Judge Funk found the law mentioned in Wolfe's defense and took the case from the jury, acquitting Wolfe. He held that the law was clear as to its meaning and that since Wolfe was not the man responsible for his daughter's failure to be a regular attendant at the sessions of the school in Clay township the state had no case against him.

## CALL LOANS HURT COUNTRY'S CREDIT

Sen. Owen in Talk on Currency Measure Says New Bill Will Enable New York Banks to Keep Clear of Speculators.

WASHINGTON, Nov. 25.—Under the present system the bank reserves of the country are concentrated largely in New York, where they are loaned in speculative accounts on the New York Stock exchange, Sen. Owen asserted Monday in opening the debate on the administration currency bill in the senate. He declared that the administration bill as reported by the committee would remedy this condition.

Sen. Owen reviewed the details of the bill and urged that by the creation of a market for discounted commercial paper and by mobilizing the reserves in public utility regional banks, the measure would remove the great dangers of the present financial system. Declaring that at present New York bankers who hold a large percentage of the country's reserves are forced to place those reserves in call loans on the stock exchange, the senator said: "We are advised by representative New York bankers that the great banks there would be glad to have the system improved by the establishment of a federal reserve banks strong enough to furnish money on demand against good commercial bills, and thus enable the New York banks to withdraw their funds from the stock exchange—which has become the most gigantic gambling establishment in the world—and place such funds in the hands of legitimate industries and commerce."

## GREATEST CONSPIRACY WAGED BY THE DEVIL

Man is Persuaded to Become Absorbed in Himself and Neglects His Salvation.

"The devil wants a man to neglect his salvation," said Rev. David Hill at the First Christian church Sunday night. "The greatest conspiracy in the world is that which the devil manipulates against a man's securing salvation in the eyes of the Lord. He does not care how much we steal or beg. The nature of a man is persuaded by the devil to become absorbed in himself, and to such an extent that he neglects the greatest element of a great nature—his salvation." The word salvation, he said, means "deliverance from sin."

The auditorium of the church was crowded at this meeting and 31 came forward to join in the common prayer. A party of 50 from the First M. E. church of River Park, including Rev. C. C. Ford, was present. The evangelist's topic for the evening was "How Shall We Escape if We Neglect so Great a Thing as Salvation?"

WHEN, after a hard day's play, tired and sleepy little heads are safely and snugly tucked away, for the trip to the "land of dreams."

Then—begins the "March of the Dolls" straight from the shops of Santa Claus, to this—his depot.

Here—at Wyman's—crowding into Toyland may be seen, armies, whole regiments of soldiers, sailors, little Miss Dollies and Mr. Dollies, and foremost of all—the Character Babies—direct from Santa Claus' Shop—they act, look and dress just like real live babies. Then there are the little Jap and Chinese dollies and—Kewpie—mustn't forget Kewpie—he leads the march as they all crowd into Toyland.

Toyland—the joy place for youngsters, bids welcome to all boys and girls—and to every father and mother, who loves some boy or girl, to whom Santa has whispered.

Wyman's Toyland—and Wyman's dollies—invite you.

## BOY IS RESTING EASIER

Roy Riggs, Hit by Automobile, Has Chance to Recover.

Roy Riggs, the young man who was run down by the automobile, driven by Samuel Leeper Sunday afternoon, is reported by authorities at the Epworth hospital to be resting easier. There is still a doubt as to whether he will ever fully recover from the effects of the injuries received in the accident, according to a statement from the hospital.

## SERVE OYSTER SUPPER

Mutual Benefit Society Have a Merry Session.

About 100 members of the Mutual Benefit Society of Ellsworth's store met at the home of Miss Jennie Valentine, 721 W. Leaslie av., Monday night. An oyster supper, with all the trimmings was served, and the proceeds were devoted to the uses of the society.

The object of the association is to provide funds for its members in case of sickness. There are 120 members of the society this year, which is nearly double the membership of last season.

## SURE WAY TO END RHEUMATISM

Ease Stiff, Sore Joints and Muscles. Makes Pains and Backache Promptly Vanish.

"Most all rheumatism is due to one cause—weak kidneys," says a noted authority. The kidneys become clogged up, get sluggish and filter out only a part of the poisonous waste matter and uric acid, all the rest remains in the blood and circulates through the system, where it lodges in the joints and muscles, and causes all the trouble.

The only way to overcome this, is to make your kidneys work properly. You can easily and surely do this by taking a little Croxone, which never fails to act promptly.

Croxone not only cleans out the clogged up kidneys, strengthens them and makes them active, but it neutralizes and dissolves the poisonous waste substances, and uric acid, that scratch and irritate and cause rheumatism, so the kidneys can filter it from the blood and drive it out of the system.

Croxone is believed to be the most remarkable preparation ever known for the prompt relief and cure of rheumatism, kidney troubles, and bladder disorders. It is entirely different from other remedies. It is so prepared that it is practically impossible to take it without results. Relief follows the first few doses, and you will be surprised how quickly stiff, sore, swollen joints, and muscles, rheumatic pains, and all such misery ends.

An original package of Croxone costs but a trifle, and every druggist recommends and sells it on a positive money-back guarantee. Three doses a day, for a few days, is often all that is ever needed to overcome the worst backache or most annoying urinary disorders.
